### **DETAILED ACTION**

1. This application is in condition for allowance except for the following formal matters:

#### ***Priority***

2. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file. Be it known that the foreign priority claimed must be acknowledged in the first line of the specification.

#### ***Election/Restrictions***

3. Claims 15-19 withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected group, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on December 12, 2005.

#### ***Drawings***

4. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: 14b'. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and

Art Unit: 3726

informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

***Specification***

5. The disclosure is objected to because of the following informalities:
6. On page 22, line 5 the phrase "with reference to Fig. 1" is repeated.
7. On page 36, lines 18 and 22 discuss two fluid discharge "device" 14e, consider revising "device" to --devices--

Appropriate correction is required.

8. The lengthy specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

***Claim Objections***

9. Claim 1 is objected to because of the following informalities:
10. On page 71, line 19 the claim reads "a second gate device disposed at position more distant" consider revising to --a second gate device disposed at a position more distant--.
11. On page 72, line 6 the claim reads "the first and second gate device in the ball passage" consider revising to --the first and second gate devices in the ball passage--.
12. Appropriate correction is required.

***Allowable Subject Matter***

13. Claims 1-14 allowed.

14. The following is an examiner's statement of reasons for allowance:
15. Claim 1 is allowable in view of the prior art because it has not been found in the art of article dispensing a pressurized fluid jetting device in the vicinity of a first gate device for removing substances attached to the surfaces of the balls, in combination with all of the other claim limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

16. As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
